LB-311 Binocular Stereo Microscope

Introduction

LB-311 Binocular Stereo Microscope offers upright, un-reversed 3D images with high resolution and high quality. Optional eyepieces and objectives expand magnification range and working distances.

LB-311 Binocular Stereo Microscope is a smart and cost-effective stereo microscope. Optional cold light and ring light can be chosen for this microscope. They are widely used in electric factories, schools laboratories, sculpture, families and so on.

Applications

LB-311 Binocular Stereo Microscope are widely applied in circuit board repair, circuit board inspection, surface mount technology work, electronics inspection, coin collecting, gemology and gemstone setting, engraving, and repair and inspection of small parts.
