

Spark plug tester

YESA-AMR04

Feature & Specification

- It can completely remove carbon from spark plug owing to blows the minute abrasive particle by high pressure air.
- It can check the ignition of spark plug have their best conditions.
- It can also automatically clean the spark plug
- Input voltage Single phase 220V
- Frequency 50 ~ 60Hz
- The working pressure of air 7 ~ 10KG/cm²
- The quantity of sand for working 350g
- The particle of sand 60#
- The voltage of tester when spark testing 15,000V
- Dimension 490(W)mm × 280(L)mm × 265(H)mm
- Weight 9.3KG
- Accessory Adapter for plug 12mm, 14mm each 2pcs
- Adapter case 1pcs, Spare sand 350g

*Note. Image, specification and model No. of equipment can be changed by manufacturing process without special reporting.
